

CHOOSING THE RIGHT WOOD PRESERVATIVE

Painting or staining may not protect wood against rot and fungi. Wood requires preventative care and an understanding of its natural aging process to enhance its best qualities and preserve its beauty. Protect your investment by choosing the right wood treatment products for your exterior lumber projects.

Armor All™ Wood Preservatives are carefully formulated to suit a variety of wood treatment requirements.

USAGE TIPS

Supplies needed:

- Paint Brush
- Tray
- Rubber Gloves
- Paint Thinner
- Wear long sleeved shirt, long pants, socks & shoes
- Water & Detergent

General Precautions: When using near garden plants, avoid splashing and make sure wood treated with a wood preservative is thoroughly dry before using it in greenhouses or landscaping. All wood preservatives are harmful to plants when wet.

Clean-up: Clean equipment (brushes, tray, etc.) with Paint Thinner; then rinse thoroughly with detergent and water. DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

Storage: Store unused product out of reach of children or animals and keep away from open flame or spark.

Disposal: Do not reuse empty container; wrap and discard in household garbage. Comply with applicable municipal regulations when disposing of unused contents. Do not dump unused contents into sewers, on the ground, or into any body of water.

HELP KEEP YOUR DECK LOOKING BETTER, LONGER WITH ARMOR ALL™ DECK TREATMENT PRODUCTS!

MAINTAIN • SAFEGUARD • PROTECT

Maintain with Armor All™ deck maintenance products to 1. Strip 2. Bleach 3. Clean 4. Waterproof your deck:

For restoring wood's natural colour: Use **Armor All™ Deck Finish Stripper** on coated wood surfaces to remove weathered clear and tint waterproofer and semi-transparent stains.

For restoring bare wood surfaces: Use **Armor All™ Wood Brightener & Deck Cleaner** on all exterior wood including redwood and cedar to restore grey and weathered wood to its natural colour. An overall cleaner, it removes tannin stains, rust, mill gaze on new wood, dirt, mildew, algae and fungus stains.

For protecting surfaces against water damage: Use **Armor All™ Multi-Surface Waterproofer** to provide protection against water damage. With long lasting beading and waterproofing, this one-coat, water-based, low VOC formula resists mildew and discoloration. Clean surface with an Armor All™ deck cleaner product prior to application.

For regular deck care maintenance: Use **Armor All™ Deck Wash Detergent**, a biodegradable formula, on coated wood surfaces to remove dirt, mildew, algae and fungus stains.

Protect outdoor wood surfaces and coatings from water damage, UV rays, mildew and discoloration with Armor All™ wood and tinted protectors: **Waterproofer and Wood Protector** products include **Natural (Clear)** and three tinted shades: **Honey Gold, Cedar Red, Walnut Brown.**
