

RECOTUFF™

FLEET WASH

CONCENTRATED VEHICLE WASH DETERGENT

Formulated with alkalis, sequestrant, detergent builders, wetting and foaming agents, water soluble solvents and performance enhancing amines.

FEATURES & BENEFITS

- Super Concentrated: Allows for dilutions up to 1:160 parts water as vehicle pre-spray
- Foaming Characteristics: Allows the product to be foamed on for increased contact time
- Brushless application: No need for mechanical agitation
- Versatile usage: Use as a pre-spray or a wand-wash for all vehicles

APPLICATIONS & DILUTIONS

Use in vehicle wash applications as a pre-spray or through a pressure washer.

BRUSHLESS PRE-SPRAY: Use at concentrations of 1 to 5 ounces per gallon depending on soil conditions. Allow for 2-3 minutes contact time before high pressure rinsing with water.

HIGH PRESSURE WASHING: Use at a concentration (coming out of wand) of 20 ounces per 100 gallons to 1 ounce per gallon depending on soil conditions.

Stubborn deposits may require scrubbing to remove.

CAUTION: Do not allow the product to dry on the surface, re-wet again and then pressure wash off with water. It is preferable to apply the product on a cool vehicle out of direct sunlight.

PRODUCT SPECIFICATIONS

Physical Form	Thin, liquid
Colour	Clear colourless
Odour	Solvent
Shelf Life	2 years
pH (concentrate)	>13
Active %	42
Specific Gravity	1.070 - 1.090 g/mL
Foaming Characteristics	High

PACKAGING

Item #	Container Type	UPC
13-168	18.9 L / Plastic Pail	0-56438-13168-7
