

# RECOTUFF™

## ORANGE-SOLV GEL

### HEAVY BODY BIODEGRADABLE DEGREASER

A unique blend of citrus solvents together with emulsifiers, surfactants and thickener formulated to remove the toughest soils from all industrial surfaces. Contains no petroleum distillates.

#### FEATURES & BENEFITS

- Gel clinging action: Clings to vertical surfaces to reduce run-offs
- Slow Evaporating: Provides longer contact time for improved cleaning
- Versatile degreaser: Removes a multitude of soils from a variety of substrates
- Pleasant odour: Citrus fragrance that deodorizes as it cleans
- Free Rinsing: Emulsifies with water spray for efficient removal of soil and solvent
- Biodegradable: All ingredients are biodegradable

#### APPLICATIONS

This product is highly effective at removing oil, grease, lubricants, tar, asphalt, wax, gum, and graffiti from various substrates. The thickened formula is especially suited for vertical surfaces and heavily soiled engines, tools, storage tanks, heavy equipment exteriors and concrete or shop floors where a longer soaking time is required.

#### DIRECTIONS

##### STIR PRODUCT BEFORE USE.

1. The product may be applied by low pressure spray, brush or by saturated cloth.
2. Allow for contact times of 2-10 minutes depending on the severity of the soil.
3. Extended time and/or agitation with a brush may be required for heavy soiling.
4. Wipe off with a clean cloth or rinse off with water spray.

**CAUTION:** Product may damage asphalt (driveways), painted surfaces and some plastics. Avoid prolonged contact time on rubber components.

#### PRODUCT SPECIFICATIONS

<b>Physical Form</b>	Viscous liquid
<b>Colour</b>	Clear to light yellow
<b>Odour</b>	Citrus
<b>Shelf Life</b>	2 years
<b>Solvency</b>	High
<b>Flash Point</b>	45°C (113°F) Typical
<b>Specific Gravity</b>	0.855 - 0.865 g/mL
<b>Emulsion Forming</b>	Yes, with water.
